<b>Tools</b>	VS code, Sublime Text, Jira, Findnerd, Monday.com, git, svn, bitbucket, postman, ngrok, docker, smee, rabbit vcs, Meld

## WORK EXPERIENCE

---

**March 2020 to Present**

**Developer -I**

Evon Technologies Pvt Ltd, Dehradun

**August 2018 to March 2020**

**Expert (Free lance)**

Chegg India Pvt. Ltd.

**June 2018 to July 2020**

**Intern**

Defence Electronics Application Laboratory (D.E.A.L.), Dehradun

## KEY PROJECTS AT EVON

---

1. **ChitChatSale:** Chitchatsale.com is designed to be an online shopping mall. When users access the computer system, the built-in GPS automatically detects the user's actual location, the computer system then looks up "City, State" to display store/products from the user location on users' computer screens. There are two homepages of the chitchatsale, default is "Live streaming" view and other is "Product view". "Live streaming" view brings users to the live-streaming webpage (default), "Product view" brings users to the webpage with all product information from stores. Users can follow or social share stores. Users can purchase products. The process of inventory management, store management and seller management done by Admin of the website.
